JOSE J. SIERRA

SOFTWARE DEVELOPER

Miami, Florida, 33014 | (786)-617-8302 | jose.sierra@novaedgetechnology.com

CAREER SUMMARY:

Full-stack software developer with over 3 years of experience building and maintaining software applications across mobile, web, and backend platforms. AWS Certified. Combines strong software engineering fundamentals with practical DevOps and system administration expertise to deliver scalable, maintainable solutions in complex environments.

WORK EXPERIENCE:

JJA Aviation Inc.

IT Manager & Developer | September, 2023 - Present | Miami, Florida

- Build and maintain internal web services using React, NodeJS, Flask, PostgreSQL and Docker.
- Managed AWS infrastructure including EC2, Amplify, and CloudFront for application hosting and content delivery
- Deployed and maintained Docker-based microservices architecture including ticketing systems, monitoring solutions (Prometheus, Grafana, InfluxDB), and remote management tools

Cuban Neuroscience Center (CNEURO)

Software Developer | September, 2021 - September, 2023

- Developed machine learning software for predicting gait speed in elderly individuals
- Contributed to the training of Artificial Neural Networks and Machine Learning Models and data processing using MatLab and Python

ETECSA

Telematics Specialist | March, 2022 - September, 2023

- Led team of 10 in telecommunications infrastructure deployment projects.
- Managed technical planning and implementation of fiber optic and wireless networks
- Coordinated with vendors (Nokia, Huawei) for mobile technology integration

CERTIFICATIONS:

AWS Cloud Practitioner | 2025

Josef & Silny Certified Bachelor of Science in Engineering Degree | 2025

SKILLS:

Web & Mobile

- JavaScript and TypeScript
- React, React Native and Expo

Backend & Cloud

- NodeJS, Express, GraphQL, Flask
- AWS (EC2, Amplify, CloudFront, Lambda)
- Firebase, PostgreSQL, DynamoDB
- Docker and Kubernetes

Development Tools & Observability

- Git, CI/CD pipelines
- Prometheus, InfluxDB, Telegraf and Grafana

NOTABLE PROJECTS:

Multi-Tenant MRO Operations Platform

NovaEdge Tech Corp.

- Designed and developed a cross-platform application (web, iOS, Android) as sole developer for aviation maintenance, repair, and overhaul (MRO) facilities
- Built comprehensive operations management system handling repair orders, work orders, asset tracking, inventory, and supply chain workflows
- Implemented multi-tenant architecture supporting multiple facilities with isolated data and customizable workflows
- Developed mobile applications using React Native and Expo, with responsive web interface using React and TypeScript
- Architected serverless backend using AWS services (Amplify, DynamoDB, Lambda, Cognito) for scalability and cost efficiency
- Delivered production-ready solution from requirements gathering through deployment and maintenance

EDUCATION:

Technological University of Havana | September, 2017 - February, 2022

- Bachelor of Science in Engineering - Telecommunications and Electronics

INTEREST & ACTIVITIES:

Developer Tooling:

- Neovim enthusiast with custom Lua-based configuration; daily tmux user for terminal-driven workflows.

Open Source:

- Occasional contributor to Neovim and tmux related projects for bug fixes and small improvements

Homelab:

- Design and maintain a UniFi-based home network with NAS integration and self-hosted services including IP camera monitoring.
